Sight Night 2019

November 7, 2019

Callynth Photography Studio

The annual Joy of Sight is our marquee event, which attracted over two hundred people last year. Each year this event gets bigger and better.

All of our attendees are potential clients for you. Sight Night is an opportunity to showcase products and increase market share.

But act soon – Sponsorships are filling up.

Event Purpose

We want people to understand just how impactful giving sight truly is. This year, we are showcasing our new farm which will go a long way in preventing eye problems in Togo.

People who come to Sight Night get to experience how life-giving our farm and eye surgeries are. When they experience it, they are moved to give sight as well. Last year's event gave sight to more than three hundred people!

Event Impact

Your sponsorship will support students like Mariéttou and Jean. They are both agriculture students at our farm. They are learning modern farming techniques so they can go back to their village and teach other farmers. They are also being discipled in the Word of God. This training is not just to help people become Christian farmers. It's to establish Christian farmers who are spreading the knowledge of modern farming techniques that help to reduce the main causes of blindness: sickness, poor health, and malnutrition.

Your sponsorship will also help give sight to someone like eight-year-old Epiphanie. Epiphanie was born blind and deaf. Because of our mobile eye clinic, he is now able to see for the first time in his life.

**Our goal this year is to show our supporters how they are solving the problem of blindness in Togo through
Eye Surgeries
Agriculture
and Discipleship**

Your generous contribution will help us extend our mission of bringing light to the blind, the unreached, and the malnourished in Togo, Africa.
