

A Year In Pictures: 2021

You gave sight to 1300 men, women, and children and the gospel to well over 3000 people. Those aren't just surgeries but those are people that are getting introduced to the truth of who Jesus is. Thank you for making these surgeries possible!

245 people gave their lives to Christ. Thousands of people heard the gospel during surgeries and ministry weeks, but 245 people met individually with our evangelist team and made personal decisions to follow Jesus. We are connecting them with local pastors and churches for further discipleship.

You are helping our house churches grow! Many new people have given their lives to Christ. The Word of God is listened to on audio Bibles every week as neighbors gather together to worship. Our staff evangelists visit the house churches regularly to encourage the members. It is truly wonderful to see God work in these churches.

You made East Texas Giving Day a success! You helped us exceed our goal. We were able to purchase a shipping container to send much-needed supplies to Togo! You can see more information about the shipping container below.

You gave sight to many children of all ages. Claire and Juste are two examples. Claire was born blind and deaf and Juste had been blind for several years. They can both see now and are thriving! Thank you so much for giving sight to these sweet children and many others! You can watch both of their stories by going to the Sight.org YouTube page.

You helped us fill our shipping container and it is almost ready to be sent to Togo! The container is filled with medical supplies, 12,000 booklets of the gospel of John, donated eyeglasses, farm equipment, a portable baptistry, a stage, lighting, and audio for open-air preaching in local fields!

God physically healed people through prayer. God is working miracles through Lewis and our staff. We are humbled and excited about seeing God move in this way and can't wait to see what He will do in 2022. Thank you for all your prayers in this area. Please keep praying!

New students at the Sight.org farm. Three students came to the farm to attend our agriculture and discipleship program. There were not as many as normal because of Covid, but we still loved having these three.

You have helped several children with tumors in their eyes. We take children like this to Ghana and host them while covering their costs during chemotherapy and surgery. The boy in this photo was able to get a prosthetic eye. Without donors like you, these children would not have anyone to help them. This is truly lifesaving care.

Our Togo Director came to Texas for a few weeks. Meheza was able to visit several supporting churches and donors while she was here. She also spoke at our East Texas event in November. She loved getting to meet with all of our donors and thank them for their support.

The Government of Togo recognized Sight.org for World Sight Day. Our team was televised on Togo's national TV and even had t-shirts made for them! It was quite an honor.

Lewis spent time with a local pastor and members of his church. Most of the churches in Togo have had very low numbers since Covid started due to fear. When Lewis was able to meet with this church and encourage them, they said it felt like it was a revival.

Three new staff members were hired in Togo. We have a new farm assistant, a new team assistant, and new medical assistant. Since we are doing so many more surgeries and ministry outreaches now, we need extra hands helping out. Our team is excited to have these three new staff members.

We had a special thank you event for all our donors in East Texas. It was a wonderful time of gathering together to hear about what God is doing in Togo.

Lewis went to the country of Benin to explore the prospect of expanding the ministry. This country is very similar to Togo with a lot of need. Lewis was able to meet with two people who worked hard to help start Sight.org ten years ago. Lewis, Peter, and Pierre were able to talk about what it would look like to expand Sight.org into Benin. Please be praying about this with us!

You helped us reach our year-end goal of \$45,000 to give sight to 300 people! Thank you so much! We will start 2022 strong because of you! We are incredibly thankful for every single person who gave to support this ministry in 2021. Because of all of you, we know God is going to use your gifts to do amazing things in Togo this year.

Thank you for supporting the ministry of Sight.org!
