## Mala: Then and Now

*Two years ago, you gave sight to Mala's father...*

**When Mala was seven years old, she started having pain in her legs. Her pain was so intense that she couldn't even walk. She hadn't been able to walk in twenty-two years.**

Her dad came to Sight.org two years ago for eye surgery. While they were there, her brother saw that we were also praying for the sick. **He ran and got Mala from her house and brought her back to be prayed for.**

Mala's brother sat her down on the ground on a blanket and waited for us to pray for her. When we saw her, we noticed that she wasn't just in pain but something else was going on in her body. **We recognized several signs that there was spiritual warfare happening.**

**We asked her if she believed God could heal her and she said yes.** We started praying and asked her to try to walk. She was still not able to walk. We prayed again and asked her to try again. This time she had less pain but could only take a few steps before she had to sit down again. **We prayed a third time and this time, she stood up and walked without any pain.**

She said that she wanted to become a Christian. We gave her a Bible and connected her with a church near her house. **We found out a few months later that she had not been going to church and the pain in her legs had come back.**

# for the gospel in Togo.

Her brother was worried about her so he took her to church. They prayed for her again and she started crying uncontrollably. **That day, she fully gave her life to Christ. She started going to a Bible study at church and got baptized.**

Later, she came to the Sight.org farm to get further discipleship. She is a hard worker, so while she was getting discipled, she also helped out around the farm. **We eventually hired her to help in the kitchen on the farm.**

**Mala said that her life looks so different now.** Before, she had to spend all her money on medical treatments and nothing ever worked. **Now, she has gone two years without any pain** and she is able to use her money for more important things.

**She has overwhelming joy now because of her relationship with Christ.**

She reads her Bible and prays every day. She said that when she was a Muslim, she was always angry. Even her mother said she was afraid to be around her. But now, when she gets frustrated, she gives it to God and she feels humble.

**Mala not only helps in the kitchen, but she also goes out with the ministry team to tell others about Jesus.**

She loves getting to be a part of this ministry because she learns more about Jesus every day. **We wish you could**

**hear her pray. Her prayers are so beautiful and pure. She truly loves the Lord with all her heart.**

**Thank you for giving sight to Mala's father and giving Mala the chance to hear about Jesus. You have completely changed her life.**

**Because of you, this entire family gave their lives to Christ when they heard the gospel after eye surgeries.**

**"I've never seen love like this from anyone before. You say you have the love of Christ and then you actually show it by coming to visit me at my house."** Most of the patients we visit say something very similar. They truly can't believe that anyone would go out of their way to visit them in their homes and check up on them after their eye surgery.

## Visionaries

Will you consider becoming a Sight.org Visionary today? **You can give sight and the gospel for \$12.50 a month.**

Go to [Sight.org/visionaries](https://Sight.org/visionaries) or use the enclosed envelope.

# Letter from the Founder

*Celebrating 10 Years of Giving Sight in Togo!*

## **Can you believe it? Sight.org turns ten this year!**

Most of you have been supporting this ministry from the very beginning. Some of you were the first persons I called to tell you the news that God had put it on my heart.

**What a wild ride the last 10 years has been. It is so exciting to look back at all God has done. But it is even more exciting to look forward to what more God is going to do. He isn't done yet!**

Every year we get to tell you more and more stories of how eye surgeries followed up with the gospel completely changes people's lives.

**God is so amazing and he loves the people of Togo.** He is chasing after them every day. He lovingly and gently points them to himself through things like eye surgery, "Celebration of Sight," home visits, gospel of John booklets, Pastor Florent's sermons, physical healings, and so much more.

**Thank you for supporting this ministry through prayer and giving. You are doing gospel, kingdom work. You are playing a part in the Great Commission. You are the hands and feet of Jesus to the people of Togo.**

*Lewis Swann*

Founder and President

**These two brothers said they couldn't stop thinking and talking about the gospel message they heard during Surgery Week.** They had the gospel of John sitting on their table when we walked into their home. They come from a long line of Voodoo followers but God is softening their hearts to the gospel. **Please pray for them as God continues to work in their hearts.**

**We believe in Sight.org's mission to not only bring sight to the blind in Africa but to share the gospel and support those in need in Togo through sustainable methods, such as farming.**

We were with Lewis in West Africa when he first had the vision for Sight.org and have supported the ministry ever since."
